## Concerns

**Qn: How many CCA sessions are there in a week?**

- CCA sessions are held twice a week and may vary during competition periods.
- Students who represent school teams etc compete extensively both at NSG Preliminary and League rounds/ SYF years.
- Intensive training sessions / rehearsals are conducted prior and during the competition phase.

## Concerns

**Qn: I have already scheduled enrichment programme for my daughter on her CCA days.**

- **CCA is a compulsory school activity**, and she is required to be present for her CCA. Give your daughter time to learn how to organise her own time.

## Concerns

**Qn: I am afraid my daughter is unable to cope or manage her time with school work and activities.**

- It will take some time before the student manages and balances school activities.

## Concerns

**Qn: My daughter has HMT, 3<sup>rd</sup> Language, (MSP/CSP) Asian Language, Foreign Language, MEP, AEP programmes externally.**

- CCA attendance will be marked as with valid reason if she has official MOE lessons that fall on CCA days.

# LEAPS 2.0

## Concerns

### Qn: Can she join a CCA out of school?

- The school recognises students who are training externally; however, they do not have any impact on the CCA grades. School-based CCA is part of the MOE curriculum.
- The students that we recognise are students who are training at high performance NSAs and NOT signed up for an activity as an enrichment. (Learn to swim, beginners TKD etc)
- **The student is still required to do a CCA in school.**
- **For students doing external CCAs, please come and see HOD PE & CCA (Mr Darren Ng).**
- **Ballet, piano, art lessons etc are not CCAs.**

# LEAPS 2.0

- **Participation in External Activities**
- A student may participate in a non-school-based CCA or a community-based activity to pursue her interests which are not offered in the school, **but not in lieu of a CCA in school.** These external activities will mainly be interest-driven and the additional participation will not contribute to a higher attainment level in this domain.
